TECHNICIANS HANDBOOK SUBSCRIBERS EQUIPMENT

A-1

MAINTENANCE AND CIRCUITS

This book is to assist technical staff on Subscribers Maintenance and Test Desk work.

The circuits are from the latest issues of the relevant standard drawings. In many cases, equipment will be wired to earlier issues of drawings. However, blank pages are included in the book to allow additional circuits to be added, as required.

The book is in several units each with a distinguishing letter and colour.

E.I. GENERAL Publications H 1010 refers.

Note that ● indicates the apparatus is going out of use.

Issued by Engineer-in-Chief,
Engineering Division,
P.M.G. Department.

Issue 1, 1969.

E.T.S. 8/0329
